- Creating a Simple Full-Stack Application with React and Node.js**
DEV Community / 11h
In my previous blogs, I introduced React and Node.js. Now, let's bring them together to build something even more exciting: a simple full-stack application! You might think full-stack apps are only for larger projects, with...
- How to Set Up PostgreSQL Logical Replication: Use Cases and Step-by-Step Guide.**
DEV Community / 12h
PostgreSQL replication is a powerful mechanism that ensures data consistency and availability across multiple databases. It enables data from one database (the primary) to be synchronized with one or more other...
- Mastering Redux Basics: A Complete Guide to State Management in React**
DEV Community / 12h
Redux Basics: A Detailed Explanation with Code Examples Redux is a state management library used widely with JavaScript applications, especially with React. It provides a centralized store for the state of your app, making it...
- Dirty Code: Simple Rules to Avoid It**
DEV Community / 12h
Every developer has faced it: dirty code—the kind of code that looks like it's been written in a hurry, sprinkled with magic numbers, duplicated blocks, and cryptic variable names. It works... barely. But maintaining it? That's a...

The screenshot shows a mobile application interface. On the left is a sidebar with a green header containing a white 'e' logo. Below the header are four icons: a document, a book, a document with 'AI', and a shield. The main content area has a light gray background. At the top, there are four category tabs: 'Today', 'Read Later', 'Feedly AI', and 'Integrations & API'. Below these is a 'FEEDS' section with a list of feeds. Each feed entry consists of a small icon, the feed name, and a subscriber count. The feeds listed are: 'Menu Maker by Qwenta' (green checkmark icon, 658 subscribers), 'Auth0 Blog' (three horizontal lines icon, 8 subscribers), 'Database Architects' (orange 'S' icon, 2 subscribers), 'DEV Community: react' (black 'DEV' icon, 310 subscribers), 'Frontend Focus' (blue speech bubble icon, 5 subscribers), 'Mike Cohn's Blog - Succeed...' (person icon, 2 subscribers), 'MongoDB | Blog' (green 'M' icon, 10 subscribers), 'node.js' (green hexagon icon, 13 subscribers), 'Node.js Blog' (green circle icon, 5 subscribers), 'Planet PostgreSQL' (blue database icon, 10 subscribers), 'Postman Blog' (orange 'K' icon, 1 subscriber), and 'r/PostgreSQL' (red 'r' icon, 10 subscribers).
